Gated

FARMHOUSE

Community

Soak in the sounds of nature and enjoy your leisure time in a cosy premium farm house

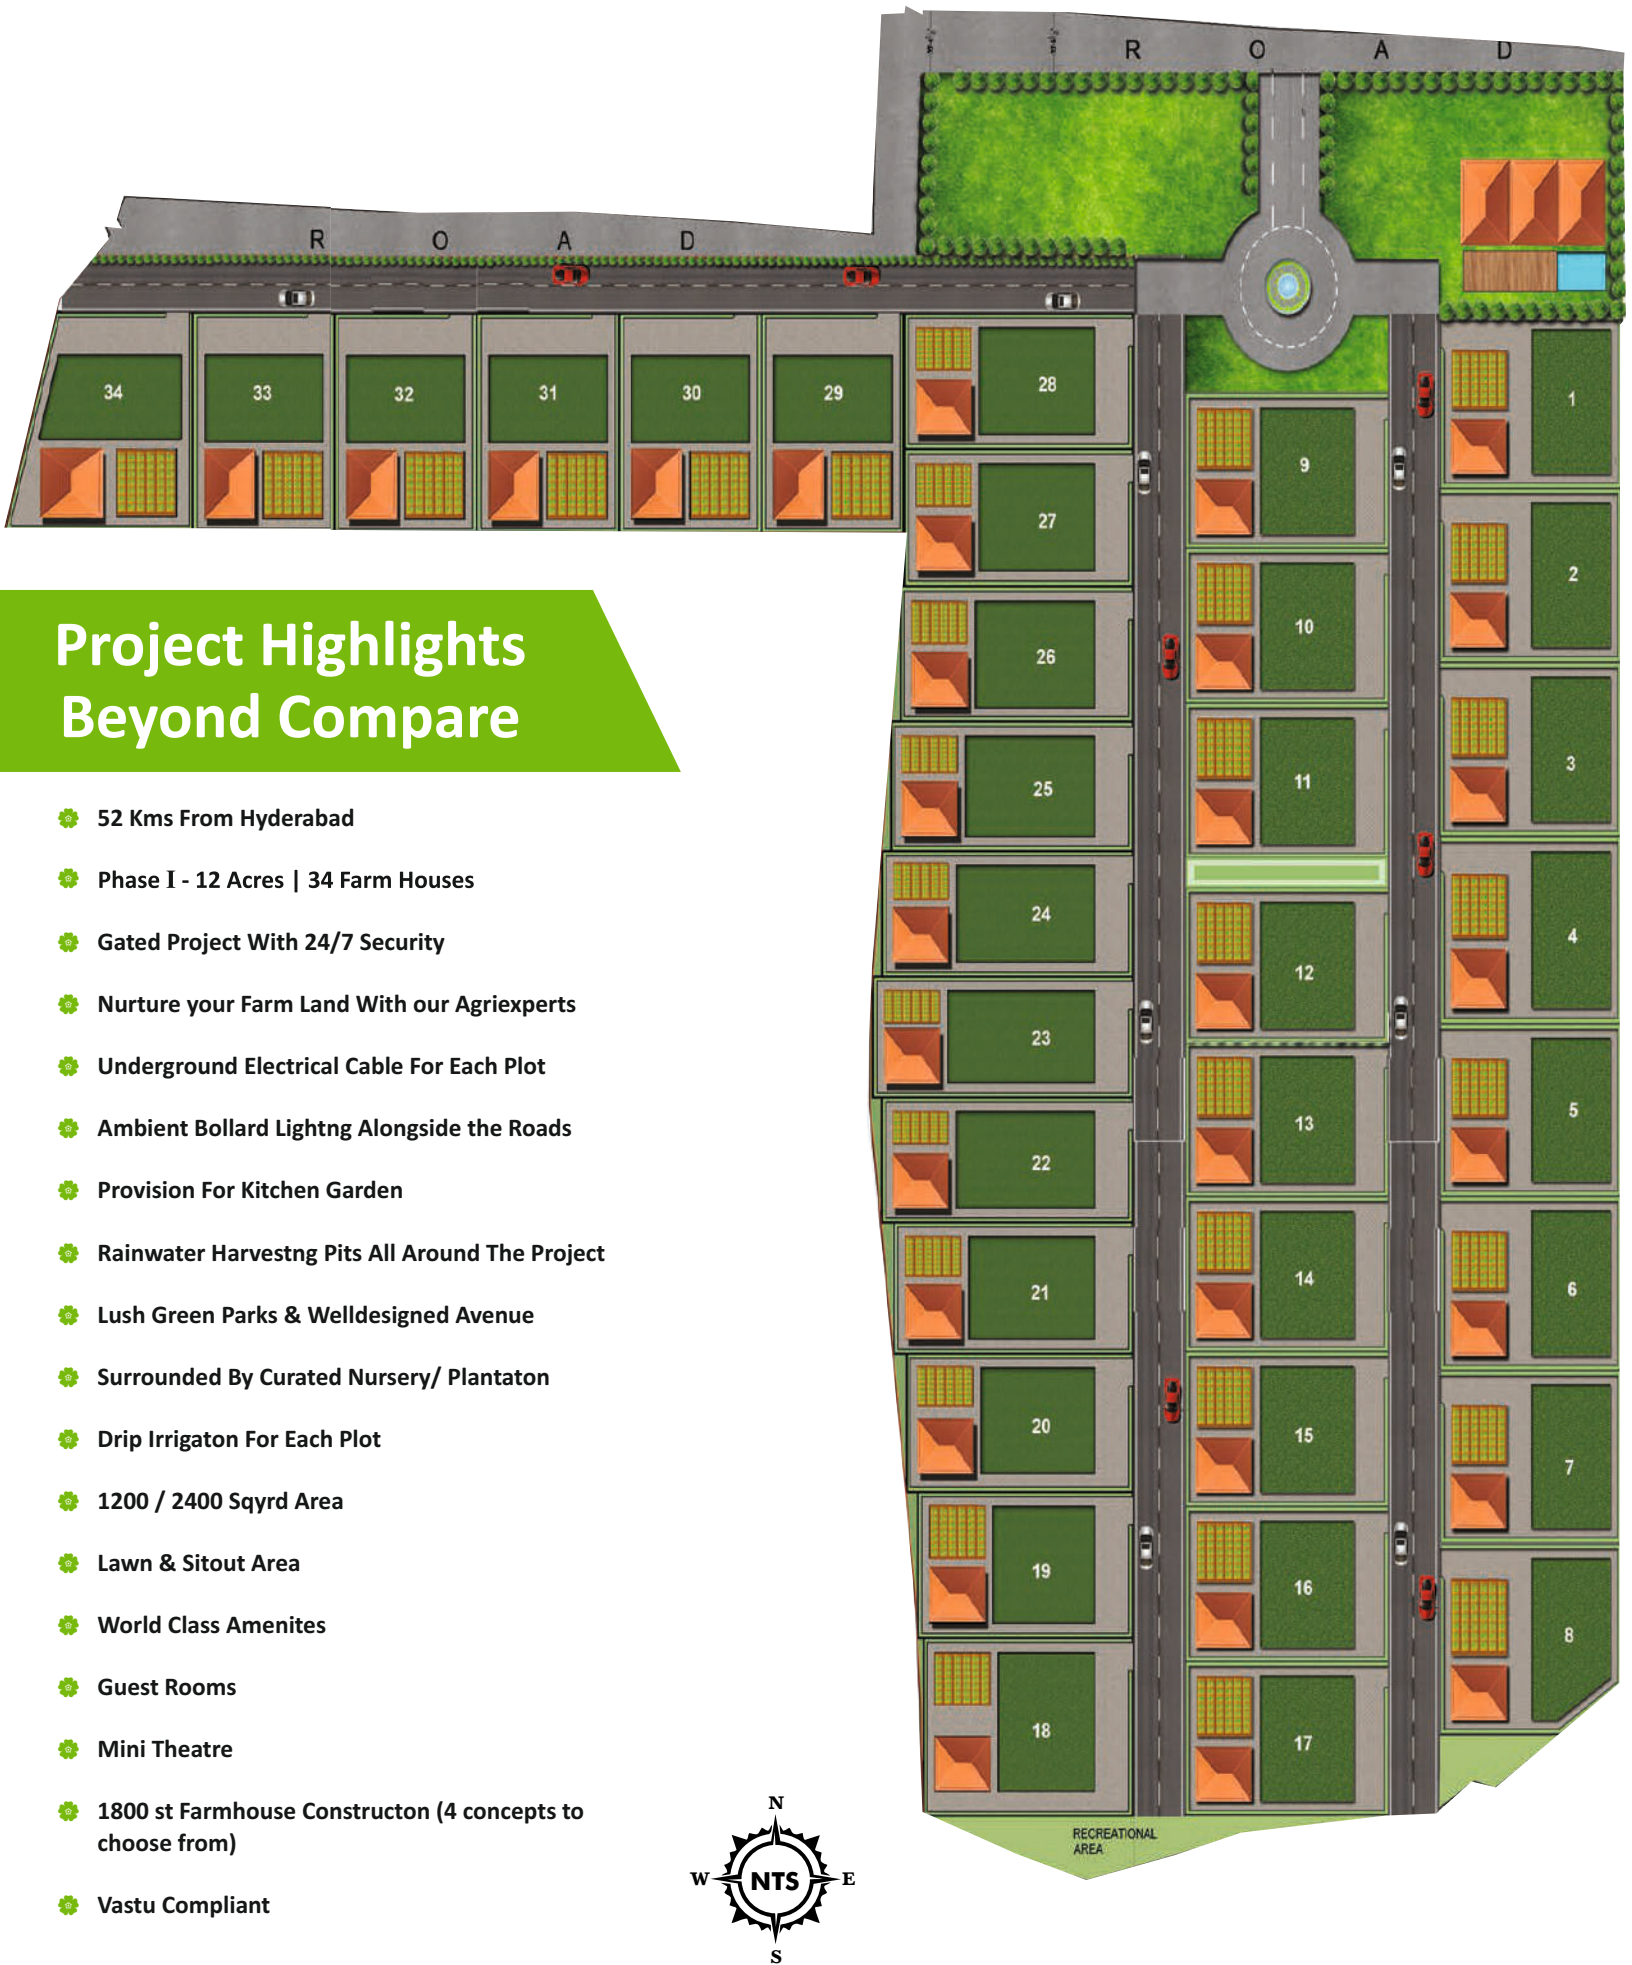

A treasure of eco retreat surrounded by lush green farming lands, peaceful environment, BASIL MEADOWS is where life meets serenity. A hassle-free drive of around 52 km from Hyderabad (25 Kms from ORR-Keesara Exit), to live a life that rediscovers rural roots.

Keeping innovation, excellence & sustainability in mind, BASIL MEADOWS aims to provide you with an abode that reflects on your lifestyle and distinct personality. It is determined to give you an extraordinary life experience. With wide variety of plantations and aesthetically designed avenue plantations, nature at BASIL MEADOWS will mesmerize you at every corner.

Drip irrigation for every plot and multiple rain water harvesting pits serve the eco-friendly purpose of the project. BASIL MEADOWS pledges to keep you and your family safe with 24-hours security surveillance at the entrance.

Work from Farm

Imagine working from the farm in your backyard with a lush green view relaxing your mind and soul.

Farm Fresh

A healthy outside starts from the inside. Eat food from the farm produce of your own organic kitchen garden.

Modern Facili?es

Why compromise on modern comforts to be in the lap of nature? Basil Meadows offers the balance.

Farming

Basil Meadows appreciates farming community. We collaborate with Agriexperts to maximize efficiency and effectiveness of the farm produce and the soil.

PANCHABHOOTAS in harmony

From traditional Chinese medicine to Feng Shui, almost every ancient culture described the nature of natural phenomena composed of several basic elements. In yoga, Ayurveda and Indian philosophy, the five elements are known as PANCHABHOOTAS. These five basic elements are earth, water, fire, air and space or ether. They represent the physical and energetic qualities of the human body and of the physical world. The ebb and flow of these five elements influence our physical, mental and emotional wellbeing. When they are in harmony, we experience peace and good health.

WATER

Represents fluidity, adaptability and change. Apart from the rain water harvesting pits etc, Basil Meadows has taken measures to even ensure free flow of water from neighboring sites ensuring no impact to neighboring farmlands.

Space/Ether

Represents emptiness, consciousness, and intuition. Discover your inner peace with Basil Meadows. Experience at Basil Meadows will be calming, soothing, receptive, intuitive, spiritual, universal, timeless, infinite, and boundless.

Designed With Balance of
PANCHABHOOTAS

EARTH

Represents solidity, stability and grounding. Healthy soil is the foundation towards a healthy life. With organic farming initiatives, Basil Meadows promotes soil preservation.

AIR

Represents movement, expansion and communication. Experience clean and fresh air at Basil Meadows. We have created open and green spaces covering 90% of the project area to give you nature fresh environment.

FIRE

Represents energy, passion and transformation. Basil Meadows facilitates an environment helping you to harness new energy from the nature.

Be a great host!

Family aside, you have friends, business associates and others to host and entertain.

To ensure that this does not come in the way of your privacy, Basil Meadows has multiple guest rooms as a part of the clubhouse complex. The clubhouse itself comes with modern amenities like banquet hall, swimming pool, recreation room, gym, sports facilities and lawn for banquets.

Go back to nature!

Basil Meadows is doing the entire hard work of finding the land with clear title, developing it, building your Farmhouse, developing your farm etc. You just have to move in and get on with your life.

One can travel to the ends of the earth in search of peace and happiness, but at Basil Meadows, you just have to walk into your backyard. Peaceful and Beautiful.

Why try to explain Miracles to your child, just have them plant a garden.

Little Farmers Farming Club is our signature program wherein we provide kids with all the facilities and dedicated space to plant their own garden and harvest the produce from it. This initiative is to have them learn valuable life lessons such as Patience and Self-sufficiency.
